~A limited number of partial scholarships and student rates are available~

## Overview:

This workshop provides information about Fetal Alcohol/Neurobehavioral Conditions (FA/NB) and the effects of alcohol and other drugs on the brains and behaviors of children, adolescents and adults.

FA/NB are brain-based, neurobehavioral conditions with behavioral symptoms. The workshop will educate you on a best practices approach for increasing understanding of FA/NB, reducing frustration, and expanding options. Case examples of successful accommodations are central to this training.

**This is intended for professionals as well as parents and other caregivers of children with confirmed or suspected FASD or other brain-based conditions. Our experience is that the training is enriched by having a mixed group of parents, caregivers, and professionals.**

## Objectives:

- Understand FA/NB as a brain-based physical disability with behavioral symptoms
- Understand and recognize primary and secondary symptoms
- Learn why people with FA/NB frequently receive overlapping DSM diagnoses
- Understand why traditional behavioral treatment techniques are frequently ineffective for people with FA/NB
- Learn to develop and apply effective strategies for people with FA/NB in different settings

CEU Credits: 19.5 hours of Continuing Education Credit for NASW (National Association of Social Workers) and ACCBO (Addiction Counselor Certification Board of Oregon) have been approved. Certificates of completion will be provided. All participants will also receive a general certificate of completion for the training, with the number of hours.

Facilitators:

Suzanne C. Emery, Masters in Leadership of Nursing, Family Nurse Practitioner. She is certified by FASCETS as a facilitator for the FASCETS Neurobehavioral Model and is a FASCETS Program Director. Suzanne lived in Costa Rica for over 20 years serving families and children at risk. She worked as resident nurse at a children's home and then as supervisor of health for a large child care organization for over 15 years. Suzanne is the founder and lead facilitator for a project started in 2013 - "Created to be Free: hope for families affected by alcohol." She leads workshops, provides consulting services, and facilitates family support groups, all in the area of Fetal Alcohol Spectrum Disorders, using a brain-based approach. She is a single mother of two wonderful young men; the younger has FASD. She is originally from the Portland area and is now residing here.

Diane Malbin is an internationally recognized authority on FASD. She is the co-founder of the nonprofit organization, FASCETS (Fetal Alcohol Syndrome Consultation, Education and Training Services, Inc.). Author of numerous papers and publications on FASD, she has provided training and consultation throughout the United States, Canada, Europe and Australia. The Oregon Chapter of the National Association of Social Workers named Ms. Malbin *Social Worker of the Year* in 2005, and she is in the NOFAS Hall of Fame for her work in the field of FASD. She is a parent of two adults with FA. Diane will be present on the third day of the workshop.

Registration: Seating is limited - please register early.

**Quotes from previous workshop participants:**

*"I really enjoyed the diversity of the group. We have so much to learn from one another. Deepening my knowledge about FASD and all that we can do has been wonderful. I leave feeling hopeful and emboldened." Parent / LCSW*

*"Wow... How many people you are reaching and educating about FASD. Really changed my point of view about this disorder as a brain disability. I noticed a development of compassion and a true paradigm shift in the audience."*

*– Professional, Native-American organization*

*"It was a fantastic training! I appreciate all of the useful and enlightening information that I received at the training." -- Juvenile Probation Officer*

*"The only workshop I have been to where I haven't spent time looking at my watch." -- Teacher consultant*

*"I have attended numerous seminars this year on FAS. I leave today feeling more equipped to do my job today than at any other conference." -- Professional, residential treatment center*

*"I loved this training. I learned a lot and would recommend this to everyone." – Parent*

*"I cannot say enough good things about this workshop - it is absolutely the best workshop that I have attended in 25 years....and I have attended a lot, on a lot of different aspects of psychology!" – Ph.D. psychologist*

*"The three of us who have been trained still talk about the impact made upon us....we thank you on a daily basis for providing us with clearer lenses through which to see our students and families." – Teacher*

*"Ta-da! There are ways to help someone once you realize they are looking at the world differently than yourself – and it is their 'normal.' By far the best information/ training I have received in years. And I didn't nod off once! And I am not a morning person." -- Lawyer*

*"The most useful and thought provoking seminar I have attended." -- Parent*

*"I've had so many questions answered that I didn't even know that I had. All the pieces of the puzzle now fit: My clients now need different help, and I am now informed on how to educate others and provide the appropriate accommodations. This has given me hope. Thank you" – Living skills and employment coordinator*

*"This training has been a very eye-opening experience. It's like I finally see the light! This is most definitely the most helpful training I've ever been to and will be extremely helpful in understanding my customers better and making their services more effective." -- Personal agent, brokerage firm for developmentally disabled people*

*"Inspired by all the caring, committed people who came and all the children they are helping." – Parent*

*"Very helpful and informative. One of the best conferences I've ever attended. Thank you!" – School psychologist*

*"Enlightening/ Paradigm shift – I made it! I will never look at behavior the same as I did." -- Professional, educational service district*

*“All about making a better world for our kids and adults. Fabulous!” – Professional, behavioral healthcare organization*

*“The conference was THE BEST I’ve been to in all of my years of teaching. It has helped me dramatically in dealing with my parents with FAS kids and the kids, too.” -- Teacher*

*“My only suggestion would be to provide this training more often and in every kind of community.” – Parent educator*

*“Comprehensive, informational, exciting, constructive. This may have been the most helpful workshop ever!” – Family support worker, child development center*

*“Incredibly informative and eye-opening. Thank you!”  
– Professional, independent living organization*

*“It was extremely informative, and professionally shifting of my understanding of behaviors and their source. Now I’m better able to intervene with more appropriate and helpful strategies as well as with more compassion.” -- Professional*

*“This workshop profoundly changed my life; which in turn will change my daughters’ lives. I am walking away with a whole new outlook on my children, my parenting, their education, our home life, and our home environment. I have NEVER wanted a workshop to not end.” – Parent*
